Number of years in Student Council:

I have been a part of the student council team for three years. And I have also been a part of the leadership team for three years.

Statement of Interest:

I am the best qualified candidate for this position because I am outgoing and involved with the student body. I care about this school and the students and staff in the school. I hope to make a big difference in the school and leave my name well known in the community.

Importance of having a position on board:

It is so important to me to have a position on board because it will allow me to have a better and louder voice within the school. I feel as if I reflect the best interest in the student body and will always put the happiness of the student body at my first priority.

New Leadership:

I have never been bored before and I believe that by changing the board it allows new ideas and new traditions to be made. With me on board I will bring new ideas and events for both the student body and the leadership class. I will also hear others' ideas and keep an open mind when given new ideas and or challenges.
