## Senior Secretary

---

### WHY I SHOULD BE SECRETARY

I believe that I should be Senior Secretary for many reasons. I believe that I possess many qualities that are essential for the secretary position. For example I take initiative on many projects and events within Student Council and Leadership. Additionally I am very responsible and can get down to business, which will be very helpful when taking care of minutes, votes, and reporting ideas. Being the Junior secretary last year was a great experience and learning opportunity for me, it has equipped me with the necessary skills to be the senior secretary.

### EXPERIENCE

#### Student Leadership & Student Council

- I joined Student Council and Leadership last year.
- In my two years of being in student council and leadership I have taken lead on many projects. Being the Junior secretary I took lead with the senior secretary on the dance committee for homecoming, I also take lead on many in-class and outside of class projects like Icebreakers, senior citizen holiday dinner, winter charity week and states. I have dedicated a lot of time to the program.
- I also have attended many conferences for the MASC/MAHS. All have been great learning experiences for me.

#### I Have two jobs, one at a grocery store and one at a cafe.

- I got a job at a grocery store in 2021 and it has helped me gain responsibility and independence drastically.
- I got my second job at a cafe as a host and server in the summer of 2023. This job has taught me many valuable skills in customer service and the food industry.
- I've learned how to manage time, money and have gained problem solving skills and communication skills from these experiences.

#### Sports Teams/ ExtraCurriculars

- I have played on the softball team for the last two years and recently joined LINK CREW this year. Being a part of these teams has taught me teamwork, problem solving skills, loyalty and leadership techniques. These skills will be very helpful for the secretary position.

## **POSITION ON BOARD**

I believe that having a role in the executive board is very important and brings you that much closer to the school and student body. I have learned very quickly that the Secretary is an important role to the entire board, their jobs are crucial during student council meetings.

## **WHAT NEW LEADERSHIP I WILL BRING**

I will bring many new leadership skills to the board. My quick thinking, confidence, great ideas and responsibility have been a great asset on the board. This will impact the student body because my quick thinking can spark ideas that will be brought to life within the school. I want to pursue this position because I am very passionate about the student body and the effects we put on it. I also think I am a great candidate and would continue to do great on the board.
