

Pierce Middle School

The curriculum at the middle school level is specifically designed to focus on challenging academic goals, the development of socially acceptable behavior, and other critical human developmental needs of early adolescents. Instruction and learning is conducted with staff and students in a welcoming and safe environment. At Pierce Middle School your family will become part of a close-knit band of students, parents, and teachers where an appreciation for individual differences is recognized and appreciated.

Staff and teachers are dedicated to making middle school a challenging and rewarding experience. Waterford is firmly committed to the middle school concept of education (grades 6-8, approximately 2,500 students) and has made the transition to that model between the elementary and high school levels. An interdisciplinary team approach has been implemented. A group of teachers work with the same group of students to meet their unique needs. The curriculum at the middle school level is specifically designed to focus on challenging academic goals, the development of socially acceptable behavior, and other critical human development needs of early adolescents. All Waterford middle schools are accredited by the North Central Association of Colleges and Schools.

Opportunities to Excel

Our students are offered an excellent instructional program in the basic academic areas of language arts, mathematics, science, and social studies. Students learn within teaching teams and have a great variety of programming options, including some highly specialized courses. The core subjects are complimented by outstanding opportunities in the areas of: art, band, orchestra, computer technology, foreign Languages, life management, music, physical education, learning strategies, and technology.

Experiences to Explore

There are many programs and services which enhance our student's academic program. Those include: enrichment and acceleration opportunities; student council; counseling services; interscholastic opportunities in math, science, social studies, spelling, and computers; student assistance program; summer academy; conflict resolution, Optimist Club; Diversity Club; and advisor/advisee anchor time.

For students interested in athletics, there are many programs available. Students may compete in any of the following areas: track & field, football, basketball, wrestling, volleyball, intramural cross-county, and intramural tennis.

A Role for Parents

We believe that parental involvement is crucial to student success. We have many opportunities for parents to become involved in the school and your child's academic success. The very best education results can only be achieved when parents, students, and teachers work together to help students succeed. You may contact the school office to talk with with Pierce's Parent Valued Volunteer Coordinator.

Points of Pride

- Pierce Middle School is fully accredited by North Central Association of Colleges and Schools (NCA)
- Technology exceeds national standards; computer labs that enhance instruction
- Students participate with staff in conflict resolution /peer mediation programs
